

NAUGHTY BEANS

The Ultimate Head-to-Head Arcade Reaction Game!

Step right up and test your reflexes! **Naughty Beans** is a fast-paced, competitive, two-player arcade game designed to push your hand-eye coordination to the absolute limit.

How to Play

Face off against your opponent in a frantic battle of speed!

- **Strike Fast:** Watch your 10-button playfield. When a button lights up, smash it as fast as you can to score a point!
- **Stay Accurate:** Precision is key! Hitting an unlit button will subtract points from your score.
- **Beat the Clock:** Keep your eye on the central LED timer strip. When the lights run out, the player with the highest score takes the crown.

Game Modes & Features

Tailor the madness to your crowd with easily adjustable game settings!

- **Adjustable Time Limits:** Operators can set matches to quick 40-second bursts, standard 60-second rounds, or grueling 90-second marathons.
- **Dynamic Difficulty:**
 - *Hard Mode:* One illuminated target at a time for each player. Great for beginners!
 - *Easy Mode:* Four targets illuminate simultaneously per player for absolute, fast-paced chaos.
- **Arcade-Quality Feedback:** Features 20 massive, illuminated arcade buttons, bright 7-segment digital score displays, and high-energy music to draw a crowd.
- **Smart Memory:** Built-in EEPROM storage tracks independent high scores for every mode and time setting, so the competition never sleeps.
